

ABOUT THESE FINE ROSARIES

These fine rosaries are hand crafted. I carefully craft "S-Chain" links, each eyelet (wire that passes through the bead) and bow (wire that joins the center and crucifix to the beads) utilizing sterling silver wire.

Although these rosaries are like fine works of art, they are meant to be used daily. They are strong and durable and at the same time beautiful.

I recommend keeping them in a rosary pouch or a jewelry box. Certain semi-precious stones are more porous than others, and should not be exposed to liquids. If well cared for, these rosaries will last longer than a lifetime. In fact, they are guaranteed for life under normal use. (This does not include accidentally putting them in a washer or dryer.) If your rosary should become damaged in any way (broken stone or loose wire), I will fix it at no cost (shipping and handling is covered by the customer.)

The rosary is the most powerful prayer next to the Holy Sacrifice of the Mass. It has been heavily promoted throughout numerous centeries by Pope after Pope and many a saint.

When properly prayed, one meditates on the Mysteries of the Rosary, one mystery for each decade. These mysteries are also known as the compendium of the Gospel.

"By its prayer, heaven hears you
and the devil fears you" —FK

GUIDE TO DESIGNING A ROSARY

There are three elements to designing a fine rosary:

1. The Center
2. The Crucifix
3. Bead Type

To view the entire selection of beads and to see our online gallery, go to:
